

# Toy Tracker 2010

smart software for toy libraries

"Toy Tracker is great! It really helped us to get the library up and running quickly"

Toy Library Manager

## ALL YOU NEED TO RUN YOUR TOY LIBRARY IN ONE SIMPLE PACKAGE...

Designed in conjunction with two leading children's organisations and developed by leading software company Start Software, Toy Tracker has all you need to help with the administration and day-to-day operation of your Toy Library.

Each aspect of your library is covered:

- **Members:** Track member details including subscription and loan fee accounts, create and print membership cards and monitor toys on loan & overdue. View each member's history at a glance.
- **Toys:** Store purchase details, age suitability notes, category, current location and history. Each toy can also have a photo, from a digital camera or scanned from a catalogue.
- **Staff & Locations:** Track staff members and toy locations - great for mobile libraries.
- **Bar Codes:** Toy Tracker also prints bar-coded membership cards and toy labels making the process of booking toys in and out simple for everyone!

**NEW!**

- **Website updates**—upload your catalogue to your website!
- **Reservations**—pre-book toys up to 6 months in advance
- **Pickup points**—schedule moves between locations
- **Filters**—easier searching by keyword or category or member type
- **Statistics**—great for analysing your membership
- **Pocket PCs**—easier for mobile libraries to use
